

CHECKMATE

WORK **SAFE**

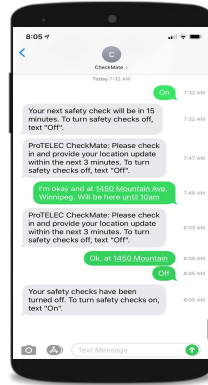

What if something
were to happen?

CHECKMATE WORKING ALONE is an automated communication service that provides safety checks to people working alone to ensure their safety.

- **CHECKMATE** is user-friendly, flexible and a cost-effective solution for employee safety.
- **CHECKMATE** calls or texts lone workers based on schedules customized to suit your needs.
- There is no hardware or software to purchase, your lone workers only need access to a phone

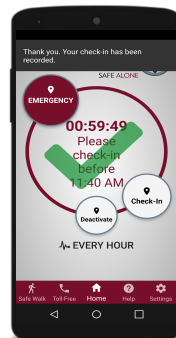

- Failure to respond to a series of Safety-Checks generates an alarm at **ProTELEC CHECKMATE's 24/7 Emergency Monitoring Centre**
- Audit Reports of all activities related to **CHECKMATE's** safety monitoring are provided for your records.
- **CHECKMATE Working Alone** calls and texts integrate seamlessly with use of the **CHECKMATE Safe Alone App**, with flexible options managed through **CHECKMATE'S** easy-to-use Dashboard
- **CHECKMATE** meets all Lone Worker Provincial and Federal Regulations

CHECKMATE SAFE ALONE is an integrated App with features designed to seamlessly manage Safety-Checks and your 'working alone' needs.

- **Emergency Button** Send an Emergency Alarm with GPS Location details to ProTELEC's Emergency Monitoring Centre
- **Activate/Deactivate** with just a 'tap'
- **Check-Ins** are clearly indicated with Reminder to Check-In via pop-ups or a text message
- **Option to change Safety-Check frequency** providing instant flexibility in unpredictable situations
- **Lone Workers can Proactively Check-In** and **Tracking Options** can record worker location

- **Safe Walk** is a feature for situations of increased danger. When activated, Safe Walk will trigger an Emergency Alarm and send location coordinates if the cell phone's home or power button is pressed.

CHECKMATE Dashboard

CHECKMATE's Dashboard provides you with an overview of all Staff registered with the service.

At a glance, administrators can view the status of lone workers, whether they are Active, in Alarm, have a Safety Check in Progress or if the service is "Off".

Date/Time	Event	Application	CheckMate Staff	IP Address/Caller ID
Jan-20-2020 9:29 AM CCST	Checklist activated.	Safe Alone App		209.171.88.227
Jan-20-2020 9:29 AM CCST	Successful safety check. Location coordinates were provided.	Safe Alone App		209.171.88.227
Jan-20-2020 11:00 AM CCST	Successful safety check. Location coordinates were provided.	Safe Alone App		209.171.88.227
Jan-20-2020 11:00 AM CCST	Checklist deactivated.	Safe Alone App		209.171.88.227
Jan-20-2020 11:03 AM CCST	Checklist activated.	Safe Alone App		209.171.88.227
Jan-20-2020 11:03 AM CCST	Successful safety check, no location was provided. Location coordinates failed: Duplicate.	Safe Alone App		209.171.88.227

- Displays Safety-Checks for a user during previous 24 hours or 7 days and the number of alarms in the last 7 days.
- Allows for direct management and viewing of personal profiles, contact lists, event histories, and a complete record of voice and text messages. Data can be exported in spreadsheet format for easy record-keeping.

PROTELEC ALARMS IS AN INDUSTRY LEADER IN EMERGENCY MONITORING

Our Emergency Monitoring Centre operates around the clock and both our facility and our operators have met or exceeded the highest level of certification available in the industry.

OUR OPERATORS

All of our operators undergo rigorous training and education in order to qualify to work in ProTELEC's Emergency Monitoring Centre, which has been 'Five Diamond' certified by The Monitoring Association (TMA), whose mandate is to maintain the highest standards of excellence in the North American alarm industry.

OUR FACILITY

Our Emergency Monitoring Centre is ULC-listed to confirm that it meets the demanding requirements for architectural and physical security features, emergency power, computer hardware and software, as well as operator training.
